Dear Parents,

Hope that you all enjoyed a restful half term break.

Please find information below regarding uniform for September. This information is being shared early this term to ensure that you have sufficient time to purchase correct uniform for September.

If you do have any difficulties with providing correct uniform at the end of this term, please contact us, we may be able to help.

Thank you to all families who were able to come in and join us for family sports afternoons. We really appreciated your participation in the activities, even though some of it may have felt a little awkward. We hope that the event has given you an insight into some of the PE skills that your child has been developing over the year.

On Friday 26th May as a school we took the time to raise awareness about cerebral palsy. You will find info below if you are interested in raising your own awareness of this condition. Our guest speaker was able to share with the children the barriers that they had faced but their determination to live life to its fullest. With your kind support you were able to fill our buckets with £140.03 worth of coins. These will be shared between The Chris Westwood Charity and Action Medical Research for Children. Thank you

Children in Year 4 are currently taking part in the national multiplication check. Children in Year 1 and some in Year 2 will be taking part in the National Phonic check from next week. We look forward to seeing the fruits of the children's hard work over the year.

The pedestrian gate is being replaced. The new gate will have controlled access. If you need to attend school during school hours you will need to ring the buzzer, office staff will then open the gate.

Cerebral Palsy Awareness

Friday 26th May

Cerebral palsy is the name for a group of lifelong conditions that affect movement and co-ordination. It's caused by a complication with the brain that develops before, during or soon after birth.

Symptoms vary widely but can include weakness in arms or legs, difficulty or an inability to walk, and problems with speech or vision.

It is often difficult to predict how children's lives will be affected as they grow.
