### Making meal times fun and educational

We have a brand new themed calendar that will not only bring fun into the dining rooms, but will introduce your child to new tastes and flavours. Keep an eye out at your child's school for dates and menus.

### Making Wolverhampton Greener

The City of Wolverhampton Council has a target of the year 2030 for the city to reach net carbon zero and make Wolverhampton a greener city. The school meal service embraces this change and will make every effort to reduce the carbon footprint of the meals we serve.

We will use local fresh produce to reduce food miles and include meat free days as we know this has an impact on climate change. Recycling, reducing waste and saving energy has always been a part of our ethos. We will help to educate children on the little things they can do in school and at home to help make the world a better place. Little things add up to a lot!
