Wk com 04.07.22	Bookfair
Thursday 21.07.22	Break-up for Summer Break

Dear Parents,

We are incredibly proud of our year 6 children who undertook KS2 SATS last week. They showed resilience and focus throughout.

Year 2 children continue to work their way through KS1 SATS, applying their skills and knowledge in different contexts.

Thank you to parents of year 6 and year 2 for the support you have been giving your children in what can be a tense time, we have really appreciated it.

It is a shame that the week which was supposed to bring a heatwave unfortunately brought rain instead! This meant that athletics activities have had to be cancelled for some classes, we are sorry that we could not have you in for these events. We will now take any opportunity when the sun shines to take the children out to be able to take part in these competitions. Year 5 and 6 did manage to escape rain and it was lovely to have parents in to share this occasion.

The school will be celebrating the Queen's jubilee on Friday 27th May. The children may wear clothes which are red, blue or white on this day.

Miss Sharma

## Sunflowers

Thank you to all families who made and sent in an up-cycled / repurposed plant pot. These have been planted up by our gardening club members and turned into a display preparing our very own Wood End flower show. Some seeds have already begun to germinate (others have been thoroughly enjoyed by the squirrels).

We will soon be preparing our contributions for Wednesfield in Bloom. We would appreciate any donations of living herbs which could be planted up.

## Change of menu

Lunch option on ...

Thursday 26th May will now be fish and chips

Friday 27th May will now be 'Jubilee Buffet'.

Year 4 and Year 5 pupils - there is a Level 2 Bikeability course being held in half-term at Aldersley Leisure Village. If you would like a booking form, please let us know.

**Year 5 Girls** - If you are considering Wolverhampton Girls' High School for your child's secondary school placement, please collect information from the office regarding open days.

## **COVID 19 UPDATE**

Respiratory infections are common in children and young people, particularly during the winter months. Symptoms can be caused by several respiratory infections including the common cold, COVID-19 and Respiratory Syncytial Virus (RSV).

For most children and young people, these illnesses will not be serious, and they will soon recover following rest and plenty of fluids.

Very few children and young people with respiratory infections become seriously unwell. This is also true for children and young people with long-term conditions.

### **Attending education is hugely important for children and young people's health and their future.**

Children and young people with mild symptoms such as a runny nose, sore throat, or slight cough, who are otherwise well, can continue to attend their education setting.

Children and young people who are unwell and have a high temperature should stay at home and avoid contact with other people, where they can. They can go back to school, college or childcare, and resume normal activities when they no longer have a high temperature and they are well enough to attend.

All children and young people with respiratory symptoms should be encouraged to cover their mouth and nose with a disposable tissue when coughing and/or sneezing and to wash their hands after using or disposing of tissues.

Symptoms of COVID-19, flu and common respiratory infections include:

- continuous cough
- high temperature, fever or chills
- loss of, or change in, your normal sense of taste or smell
- shortness of breath
- unexplained tiredness, lack of energy
- muscle aches or pains that are not due to exercise
- not wanting to eat or not feeling hungry
- headache that is unusual or longer lasting than usual
- sore throat, stuffy or runny nose
- diarrhoea, feeling sick or being sick

Those with symptoms are advised to stay at home and avoid contact with other people until they feel well, and no longer have a temperature.

**Those with diarrhoea or vomiting should not return to school until they have been symptom free for 48 hours.**
