

Welcome to Year 6 2022-23

Most resources referred to in this presentation can be found on the school website.

What you'll find in this presentation ...

- Who will be working with your child
- How we will promote and support the children's well-being
- Understand routines in Year 6
- A glimpse into the year ahead
- Expectations for homework
- Some resources that can be accessed to support your child's learning
- An outline of the provision for reading, writing and maths

Who works in Year 6?

Miss Sangha

Mr Sheard

Mrs Russell

Mrs Gough

Mr Pinnock

Well-being

What we're doing...	Why we're doing it...
PSHE curriculum	Supporting emotions: encouraging interactions and sharing experiences
Physical fitness	Promoting physical health to support their well-being
Intervention	Small groups will allow us to focus on children's barriers to learning
Gathering as a whole school	Promote a feeling of unity and develop the school community

A week in Year 6

Wood End Primary School
2022 / 2023

Class Timetable Year 6

Mon	Assembly	Maths Place Value	Writing Chronological Report	Reading		PE / Music	
Tue	Assembly	Maths Place Value	Writing Chronological Report	Reading	Fitness Activity	History WW1 and WW2	
Wed	Assembly	Maths Place Value	Writing Chronological Report	Comprehension	Writing	RE Charities Around the World	
Thurs	Assembly	Maths Place Value	Writing Chronological Report	Spellings	Arithmetic	Art World War Artists	
Fri	Assembly	Maths Place Value	Writing Chronological Report	Handwriting	Number Clubs / Oracy	PSHE	French Actions

What we will cover in these subjects is available in the 'Parent Curriculum Overview' on the parents area of the school website. ('Curriculum Overviews and Homework')

The year ahead:

These are just a few things to expect over the course of the year ...

- Termly parent meeting
- Enrichment activities for children
- Opportunities for you to come into school and share in the children's learning
 - Year 6 SATS (Reading, Maths and Spelling, Punctuation and Grammar papers) – May 2023

What about homework?

Homework activities can be found on the Parent Curriculum Overview

Home reading	<ul style="list-style-type: none">• Please record home comments / messages in the reading diary. (<i>Reading in school is recorded separately.</i>)• Please listen to them read but also take time to read to them.
Number club	This will be sent home on Friday after it has been completed in school in order to correct errors for the next week's club.
Spellings	Spellings will be sent home on Thursday and will be tested on the following Thursday.
Enrichment tasks	These are based on the subjects the children are learning about and can be found on the Parent Curriculum Overview.

Online resources:

www.ictgames.com

<https://www.cgpbooks.co.uk/primary-books/ks2>

<https://www.purplemash.com/#tab/pm-home>

We may share other resources with you as the year goes on.

What are children aiming for in Year 6?

- Age Related Expectations (ARE) are the standard that pupils are expected to be working at by the end of the year.
- Target sheets for reading, writing (English) and maths are available on our school website.
 - Maths - <https://www.woodendprimaryschool.co.uk/maths>
 - Reading & writing - <https://www.woodendprimaryschool.co.uk/english>
- Children's journeys will look different and we will share these details with you individually.

Reading:

- Comprehension lessons will include a focus on VIPERS skills.
- There will be reading for enjoyment every day.
- Further information about reading can be found on the school website:
<https://www.woodendprimaryschool.co.uk/english>
- The reading diary is also a useful resource which can help you in supporting your child with their reading.

Writing:

Writing comprises of different key areas:

- Spelling
- Handwriting
- Composition
- Vocabulary, Grammar and Punctuation

Further information about writing can be found on the school website: <https://www.woodendprimaryschool.co.uk/english>

Maths:

The maths curriculum is built of two main areas – arithmetic and reasoning.

In order to develop their arithmetical skills, the children have a weekly arithmetic lesson and rapid recall skills are rehearsed throughout the week.

To support the children in developing their rapid recall of number facts, number clubs will be tested and sent home weekly. These match to maths targets which can be found along with other resources on the school website:

<https://www.woodendprimaryschool.co.uk/maths>

On the next slide are examples of questions the children may be asked to complete as part of their reasoning lessons.

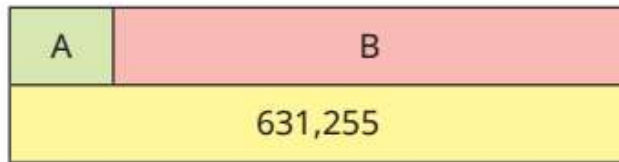

Maths:

Dani thinks that 12,000 g is greater than 20 kg because $12,000 > 20$

Do you agree?

Explain your answer.

Here is a bar model.

- A is an odd integer that rounds to 100,000 to the nearest 10,000
- The sum of the digits of A is 30
- B is an even integer that rounds to 500,000 to the nearest 100,000
- The sum of the digits of B is 10
- A and B are both multiples of 5

What could be the values of A and B?

Tiny compares $\frac{3}{5}$ and $\frac{7}{15}$

$\frac{7}{15}$ is greater
because 7 is greater
than 3

Is Tiny correct?

Explain your answer.

What could the missing numbers be?

$$\frac{\square}{21} \div 4 = \frac{\square}{21}$$

Can any of your answers be simplified?

We would appreciate your support ...

- Please look at the supportive materials for this presentation on the website.
- Get to know what the expectations are for your child this year.
- Ensure your child is in school with us.
- If you have any questions, please contact the school via email.

Thank you for your
continued support.
